#### FLEET DUE TO SAIL

(Continued from Page 1)  
tion in any festivities as long as this sailing is in process.

Shore leave will be arranged in the evenings and at other times when the men can be let go, so that each of the men will have leave for a while at least during the present stay here.

#### Had Evaporated Food

One tar ashore yesterday was heard to remark that they had had a very nice trip on the way up from Samoa, but were rather hungry for some time before making port. They found no supplies of any note at Pagopago, and so were fed on evaporated goods for a considerable part of the trip back from southern waters, with the result that they were rather glad to see fresh stores.

#### Fleet Athletics

Nothing beyond one possible game will be doing in the baseball line this time. The whole thing will be boxing and two tugs-of-war at the eleventh in the old Fishmarket. The boxing game is attracting a great deal of attention on board the cruisers just now, and a great number of the men have been matched. Probably one evening will be devoted to this sport, and the rest of the boxing which is to be done will have to come after the trip to Magdalena, or while the cruisers are there. The would-be boxers of the cruisers have signed up with the athletic officer, Flag Lieutenant Proteet, in overwhelming numbers.

#### Second Division Friday

The other three cruisers, the Tennessee, California, and the Washington, with the remainder of the destroyers and the Solace, are expected to arrive here on Friday. This bunch will be at once coaled.

While she was at sea, the news was conveyed to the West Virginia by wireless that the Solace had arrived at Pagopago with Chaplain Patrick, wife, and two children, and the wife of Lieutenant Riddle of the Atlantic Fleet, all of them survivors of the Acon wreck at Christmas Island. One of the Patrick children was born on the island. The Solace made one previous trip to Sava, from which this party was brought, to get information of the Acon.

The Fleet will probably cut San Diego out of the schedule, as it is highly important the cruisers arrive at Magdalena Bay in time for target practise, beginning at the last of the month.
